Channel Partners Program

Academic Domain

AMS-Academic Management System: AMS is academic system which helps in monitoring, analysing and tracking student and staff attendance along with classroom management for Universities, Colleges & Business Schools. We provide the entire software system along with configured hardware.

BioConnect : Unlike traditional methods of attendance management – cards, PINs, fobs and keys, BioConnect identity platform relies on people's Rightful Identity, their biometrics. Whether you are a growing small company or a large organization present across world, Bioconnect time and attendance system helps you track attendance of every employee or students accurately, improve workforce allocation efforts, helps to calculate accurate payroll and attendance and achieve better compliance.

Hospitality Domain

ROS-Restaurant Ordering System (A touch based ordering system for restaurants): Restaurant Management has been made so easy to use with ROS for your restaurant. ROS allows restaurant staff to function in methodical manner, and helps the restaurant owner and manager to have seamless end to end operation and achieve highest productivity in all aspect of their restaurant.

Society Management System : Society Management System, where we enhance traditional method of society operation with next generation smart technology. It is highly functional and easily manageable. This software is for society management level persons, members, visitors and security agency.
